

WRINKLE RELEASER | DAXXIFY®

INJECTION TREATMENT

AFTERCARE AND CONSENT FORM

Procedural Description

Daxxify® is an FDA-approved botulinum toxin type A treatment that provides longer-lasting wrinkle reduction, with effects that often last up to 4-6 months. Known for its Peptide Exchange Technology, Daxxify combines the benefits of neurotoxin treatment with a peptide-based stabilizer, which enhances both the duration and skin-smoothing effects of the treatment. Daxxify targets dynamic wrinkles by temporarily relaxing specific facial muscles, making it effective for areas such as crow's feet, forehead lines, and frown lines. Results generally appear within 3-7 days, with full effects visible in approximately 2 weeks.

Benefits of Daxxify

- **Longer-Lasting Results:** Daxxify typically lasts 4-6 months, longer than most other neurotoxins.
- **Peptide-Enhanced Technology:** The unique peptide stabilizer contributes to a glowing, smoother complexion.
- **Customizable and Precise:** Ideal for clients with more pronounced muscle movement or those seeking extended results.

Pre-Treatment Instructions

- **Avoid Blood Thinners:** Refrain from aspirin, ibuprofen, fish oil, and other blood-thinning agents for 7 days before treatment to minimize bruising.
- **Avoid Alcohol and Smoking:** Avoid alcohol and smoking for at least 24 hours prior to your appointment.
- **Skincare Precautions:** Discontinue Retin-A and other strong skincare treatments for 2 days before and after the treatment.
- **Eat and Hydrate:** To prevent lightheadedness, ensure that you are well-fed and hydrated before your session.
- **Health Status:** Please reschedule if you have a cold sore, rash, or active illness on the day of treatment.

Post-Treatment Instructions

- **Avoid Touching or Massaging:** Do not rub, massage, or apply pressure to the treated area for at least 24 hours to avoid unintended spread of the neurotoxin.
- **Stay Upright:** Remain upright for at least 4 hours post-treatment to help the product settle as intended.
- **Avoid Exercise and Heat:** Refrain from strenuous exercise, saunas, and hot tubs for 24 hours.
- **Dietary Precautions:** Limit alcohol, caffeine, high-sodium and sugary foods, and cigarettes for 24-48 hours after treatment to minimize swelling.

Expected Results and Limitations

- **Gradual Onset:** Results typically start appearing within 3-7 days, with full effects visible around 2 weeks.
- **Extended Duration:** Effects of Daxxify generally last between 4-6 months, with periodic treatments needed to maintain results.
- **Variable Results:** Individual responses vary based on skin type, muscle activity, and lifestyle. Multiple treatments may be needed for sustained results.

Potential Risks and Complications

Although Daxxify is generally safe, potential risks and side effects include:

- **Common Side Effects:** Temporary bruising, swelling, redness, or tenderness at the injection sites.
- **Asymmetry:** Minor unevenness in muscle relaxation may occur, typically correctable with follow-up treatments.
- **Temporary Muscle Weakness:** In rare cases, unintended muscles may be temporarily affected, resulting in drooping or difficulty with certain expressions.
- **Eye and Vision Concerns:** Rarely, clients may experience dry eyes, blurred vision, or eye irritation.
- **Allergic Reactions:** While rare, severe allergic reactions can occur. Immediate medical help should be sought if symptoms such as itching, rash, or swelling appear.
- **Infection:** Any injection carries a slight risk of infection. Contact Honey Skincare Studio immediately if signs of infection occur, such as redness, warmth, or pus at the injection site.

Contraindications

Daxxify treatment is not suitable for individuals who:

- Are pregnant or breastfeeding.
- Have known allergies to botulinum toxin or any Daxxify components.
- Have neuromuscular disorders, such as myasthenia gravis or ALS.
- Have active infections or open wounds at the injection site.

Financial Responsibilities

This procedure is elective and is not covered by insurance. Any costs associated with additional treatments to address complications are the client's responsibility, and refunds are not available.

Special Considerations for Women of Childbearing Age

By signing below, I confirm that I am not pregnant and do not plan to become pregnant during the course of treatment. I will inform my provider immediately if this status changes.

Consent to Clinical Photography

I understand that clinical photographs may be taken before and after my procedure for documentation, treatment planning, and progress monitoring. These images are confidential and will be securely stored as part of my medical record. They will not be used for marketing or educational purposes without my explicit, separate consent.

WRITTEN CONSENT

By signing below, I confirm that I have read and fully understand the information provided in this consent form for Daxxify® Injection Treatment. I acknowledge the potential risks, benefits, and aftercare requirements and agree to follow all recommended instructions. I confirm that I have had the opportunity to ask questions, and all my questions have been answered to my satisfaction. I agree to contact Honey Skincare Studio at 703-589-9665 immediately if I experience any concerns or adverse reactions following the treatment. I consent to the administration of Daxxify by the trained professionals at Honey Skincare Studio.
