

WRINKLE RELEASER | DYSPORT® INJECTION TREATMENT AFTERCARE AND CONSENT FORM

Procedural Description

Dysport® is an FDA-approved botulinum toxin type A treatment designed to relax specific facial muscles temporarily, reducing the appearance of dynamic wrinkles. Known for its fast-acting formulation, Dysport typically shows initial results within 2-3 days, making it an ideal choice for clients seeking quicker onset of wrinkle reduction. Dysport's unique formulation allows it to spread more evenly, making it particularly effective for larger treatment areas like the forehead and providing a smooth, natural-looking result. Due to its specific formulation, approximately three times the number of Dysport units are required to achieve the same effect as one unit of Botox, and our experienced providers will ensure the appropriate dosage for your desired results. Results generally last 3-4 months.

Benefits of Dysport

- **Rapid Onset:** Results are often visible within 2-3 days, with full effect by 7 days.
- **Natural, Smooth Finish:** Dysport's spreadability provides a more even effect, ideal for larger areas like the forehead.
- **Customizable:** Treatments are tailored to individual needs for natural-looking, refreshed results.

Pre-Treatment Instructions

- **Avoid Blood Thinners:** Discontinue aspirin, ibuprofen, fish oil, and other blood-thinning supplements at least 7 days before your appointment to reduce bruising.
- **Avoid Alcohol and Smoking:** Refrain from alcohol and smoking for 24 hours prior.
- **Skincare Precautions:** Avoid Retin-A or other potent skincare treatments for 2 days before and after.
- **Eat and Hydrate:** To minimize the chance of lightheadedness, please ensure you've eaten and are hydrated prior to the procedure.
- **Health Status:** Reschedule if you have a cold sore, rash, or active illness on the day of treatment.

Post-Treatment Instructions

- **Avoid Exercise and Heat:** Avoid strenuous exercise, saunas, and hot tubs for at least 24 hours to help the neurotoxin settle in the intended area.
- **Stay Upright:** Refrain from lying flat or applying pressure to the treated areas for 4 hours post-treatment.
- **Avoid Makeup:** Do not apply makeup or skincare products to the treated areas for 24 hours.
- **Dietary Precautions:** Limit alcohol, caffeine, high-sodium and sugary foods, and cigarettes for 24-48 hours after treatment to minimize swelling.

Expected Results and Limitations

- **Rapid Onset:** Dysport typically begins working within 2-3 days, with full results at 1 week.
- **Temporary Results:** Effects usually last 3-4 months, depending on individual factors; maintenance treatments are recommended for prolonged benefits.
- **Variable Results:** Individual responses vary due to factors like skin type, muscle strength, and lifestyle.

Potential Risks and Complications

Dysport is generally safe, but possible risks or side effects may include:

- **Common Side Effects:** Bruising, swelling, redness, and tenderness at injection sites.
- **Asymmetry:** Minor differences in muscle response may occur, often temporary.
- **Muscle Weakness:** In rare cases, unintended muscles may be affected, causing temporary drooping or difficulty with certain expressions.
- **Eye and Vision Concerns:** Dryness, irritation, or blurred vision are rare but possible.
- **Neuromuscular Reactions:** Clients with conditions like myasthenia gravis or ALS may be at increased risk.
- **Allergic Reactions:** While rare, severe allergic reactions are possible; immediate medical attention should be sought if symptoms such as itching, rash, or swelling occur.

Contraindications

Dysport treatment is not recommended for those who:

- Are pregnant or breastfeeding.
- Have allergies to botulinum toxin or any Dysport ingredients.
- Have neuromuscular conditions like myasthenia gravis or Lambert-Eaton syndrome.
- Have active skin infections or inflammation at the treatment site.

Financial Responsibilities

This procedure is elective and is not covered by insurance. Any additional treatments or corrections needed due to complications will be the patient's financial responsibility. Refunds are not available.

Special Considerations for Women of Childbearing Age

By signing below, I confirm that I am not pregnant and do not plan to become pregnant during the course of treatment. I will inform my provider immediately if this status changes.

Consent to Clinical Photography

I understand that clinical photographs may be taken before and after my procedure for documentation, treatment planning, and monitoring of progress. These images are confidential and will be securely stored as part of my medical record. They will not be used for marketing or educational purposes without my explicit, separate consent.

WRITTEN CONSENT

By signing below, I confirm that I have read and fully understand the information provided in this consent form for **Dysport® Injection Treatment**. I acknowledge the potential risks, benefits, and aftercare requirements and agree to follow all recommended instructions. I confirm that I have had the opportunity to ask questions, and all my questions have been answered to my satisfaction. I agree to contact Honey Skincare Studio at **703-589-9665** immediately if I experience any concerns or adverse reactions following the treatment. I consent to the administration of Dysport by the trained professionals at Honey Skincare Studio.
