

LIPO-MINO FAT BURNER ENERGY SHOT CONSENT FORM

General Information

The Lipo-Mino Fat Burner Energy Shot is an injection designed to enhance fat metabolism, increase energy levels, and support weight management. It combines a blend of lipotropic agents, essential amino acids, and vitamins that work together to promote fat breakdown, boost metabolism, and enhance overall vitality.

How It Works

The Lipo-Mino Mix includes:

- **Methionine, Inositol, and Choline (MIC):** These lipotropic agents assist in breaking down and metabolizing fat cells.
- **Carnitine:** Supports energy production by transporting fatty acids into the mitochondria for fuel.
- **B-Complex Vitamins:** Enhance metabolism, energy levels, and overall well-being.

Indications

This injection may be recommended for:

- Individuals seeking assistance with weight management or fat loss.
- Those looking to increase energy levels and boost metabolism.
- Patients wanting to enhance overall wellness and support a balanced lifestyle.

Side Effects

Common side effects may include:

- Mild discomfort, redness, or swelling at the injection site.
- Temporary nausea, dizziness, or upset stomach.
- Headache or lightheadedness.

Rare, but severe side effects include:

- Allergic reactions (rash, swelling, breathing difficulties).
- Increased heart rate or chest discomfort.

Contraindications

This injection should **not** be administered to individuals who:

- Have allergies to any of the components (e.g., MIC or carnitine).
- Are pregnant or breastfeeding without consulting their healthcare provider.
- Have severe liver or kidney conditions without medical supervision.

Interactions

The Lipo-Mino Fat Burner Shot may interact with:

- Blood pressure medications and certain stimulants.
- Other weight management or fat-burning supplements.

Please inform your healthcare provider of any medications or supplements you are currently taking.
